

How to Order a CT or CBCT Scan

Step 1:

Go to www.idtscans.com and click on **Search** to find a scanning site in your area. Alternatively, if you already know the scanning site you want to use, you can click on **Request a New Dental CT Scan**.

By clicking on **Search** you can find your preferred scanning site by **Location**, **Keyword** or from the **A-Z list**.

Please Note – not all scanning sites will accept online bookings. Please follow the instructions on the screen.

Step 2:

When you've found your preferred scanning site, select **Click Here to Request a Scan**

www.idtscans.com

[Home](#) | [About Us](#) | [Services](#) | [Support](#) | [Knowledge Base](#) | [Contact Us](#)

Disclaimer: Scanning Sites are listed for the user's convenience. IDT Scans does not necessarily endorse or recommend these scanning sites.

©2008-19 IDT Scans Terms & Conditions Privacy Policy

Step 8:

Please select your preferred reformatting option:

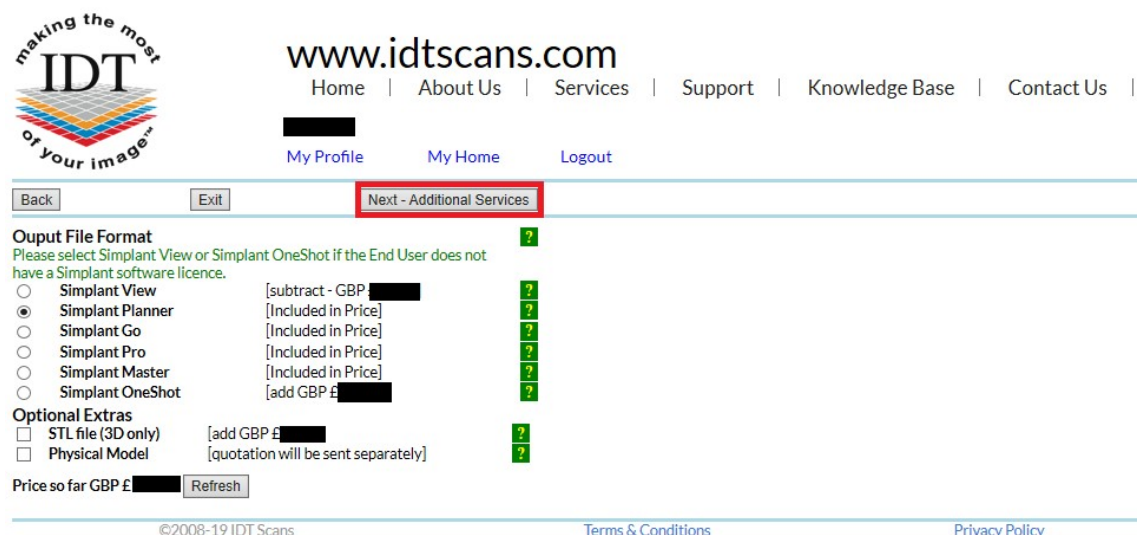

The screenshot shows the IDT Scans website interface. At the top left is the IDT logo with the tagline "making the most of your image". The main header includes the website name "www.idtscans.com" and navigation links: Home, About Us, Services, Support, Knowledge Base, and Contact Us. Below the header, there are user links: My Profile, My Home, and Logout. The main content area features a navigation bar with "Back", "Exit", and "Next - File Format" buttons. The "Next - File Format" button is highlighted with a red box. Underneath, the "Reformatting Options" section lists three radio button options: "DICOM Files" (with price [GBP £ [redacted]] and a green question mark icon), "Simplant" (with price [GBP £ [redacted]] and a green question mark icon), and "InVivo Viewer" (with price [GBP £ [redacted]] and a green question mark icon). A link for more information about the Simplant software family is provided. There is also a checked checkbox for "Cone Beam Discount" with a price of [- GBP £ [redacted]]. At the bottom of this section, there is a "Price so far GBP £ [redacted]" and a "Refresh" button. The footer contains copyright information "©2008-19 IDT Scans", "Terms & Conditions", and "Privacy Policy".

- **DICOM Files** – the original axial slices from the scanner, with basic viewing software (**DO NOT** use this option if you want SIMPLANT View, Planner, Pro, Master, GO or OneShot format – select **SIMPLANT** instead).
- **Simplant** – the service most frequently selected by SIMPLANT Planner and OneShot users. All datasets include “Separate Teeth” (virtual teeth extraction) and “Separate Skin” (transparent skin surface) where applicable.
- **InVivo Viewer** – a service requested by dentists who use InVivo Dental software produced by Anatomage. Datasets are supplied in proprietary InVivo format. A copy of the InVivo Dental Viewer is also supplied.

Step 9:

Choose your file format and any of the optional extras that you want (fees apply).

The example below is based on choosing **SIMPLANT** in step 8. If you choose **DICOM Files** in step 8, you will see a different list of file formats.

The screenshot shows the IDT Scans website interface for the "Output File Format" step. The "Next - Additional Services" button in the navigation bar is highlighted with a red box. The "Output File Format" section includes a note: "Please select Simplant View or Simplant OneShot if the End User does not have a Simplant software licence." Below this, there are radio button options for different Simplant formats: "Simplant View" (with price [subtract - GBP £ [redacted]] and a green question mark icon), "Simplant Planner" (with price [Included in Price] and a green question mark icon), "Simplant Go" (with price [Included in Price] and a green question mark icon), "Simplant Pro" (with price [Included in Price] and a green question mark icon), "Simplant Master" (with price [Included in Price] and a green question mark icon), and "Simplant OneShot" (with price [add GBP £ [redacted]] and a green question mark icon). The "Optional Extras" section includes checkboxes for "STL file (3D only)" (with price [add GBP £ [redacted]] and a green question mark icon) and "Physical Model" (with price [quotation will be sent separately] and a green question mark icon). At the bottom, there is a "Price so far GBP £ [redacted]" and a "Refresh" button. The footer contains copyright information "©2008-19 IDT Scans", "Terms & Conditions", and "Privacy Policy".

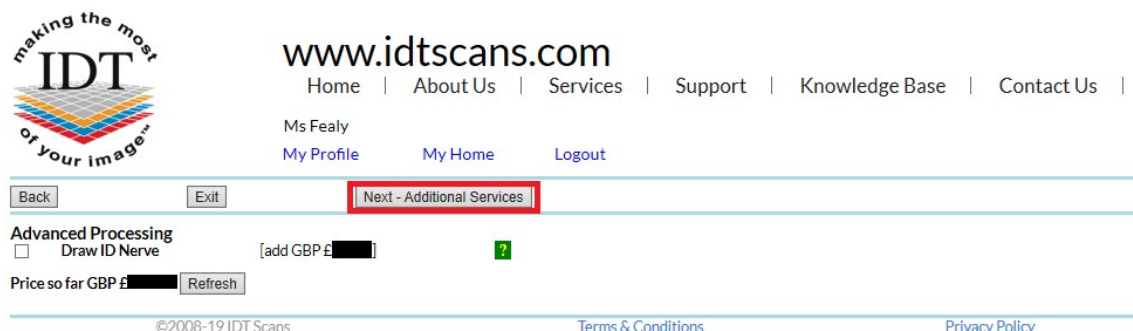

NOTES:

End User is the person who will be viewing the images using SIMPLANT software. This is not necessarily the person who is requesting the scan.

- **Simplant View** – is free viewing software. Select this option if the End User needs to view the images and take measurements but does not need to place virtual implants, create a treatment plan or order a surgical drill guide.
- **Simplant Planner** – is not free (a licence is required). Select this option if the End User owns Simplant Planner software.
- **Simplant GO** – is entry-level, user-friendly software optimised for ordering surgical guides. It is not free (a licence is required). Select this option if the End User owns Simplant GO software.
- **Simplant Pro** – is not free (a licence is required). Select this option if the End User owns Simplant Pro software.
- **Simplant Master** - is not free (a licence is required). Select this option if the End User owns Simplant Master software.
- **Simplant OneShot** – is free viewing software with all the features of Simplant Planner, however, an extra fee is added to the price of the scan. Select this option if the End User doesn't own Simplant but needs to place virtual implants, create a treatment plan or order a surgical drill guide.
- **STL File** – if you require a 3D dataset in STL (stereolithography) format. You can use this to print your own 3D model.
- **Physical Model** – select this option if you require a 3D Model made by IDT using 3D printing.

Step 10:

You can select **Draw ID Nerve** at this point if you wish (an extra fee applies)

The screenshot shows the IDT Scans website interface. At the top left is the IDT logo with the tagline "making the most of your image". The main header displays "www.idtscans.com" and a navigation menu with links for Home, About Us, Services, Support, Knowledge Base, and Contact Us. Below the header, the user is identified as "Ms Fealy" with links for "My Profile", "My Home", and "Logout". A horizontal menu contains buttons for "Back", "Exit", and "Next - Additional Services", with the latter being highlighted in red. Below this menu, there is a section for "Advanced Processing" with a checkbox for "Draw ID Nerve" and a price field showing "[add GBP £]". A "Refresh" button is located below the price field. At the bottom of the page, there is a footer with copyright information "©2008-19 IDT Scans", links for "Terms & Conditions", and "Privacy Policy".

- **The ID Nerve Canal** will be estimated by a member of IDT Scans staff supervised by a Registered Clinical Scientist. IDT Scans cannot guarantee the accuracy of the ID Nerve Location. You should rely on your own professional judgement and not base your

treatment plan or surgery on this estimate. If you are in doubt do not select this option.

Step 11:

Here you can select any additional services you would like/require (extra fees apply):

The screenshot shows the website header with the IDT logo and navigation links. Below the header, there are buttons for 'Back', 'Exit', and 'Next - Delivery' (highlighted with a red box). The main content area is titled 'Optional Additional Services' and contains a disclaimer. Below the disclaimer, there are three service options, each with a checkbox, a price field, and a help icon:

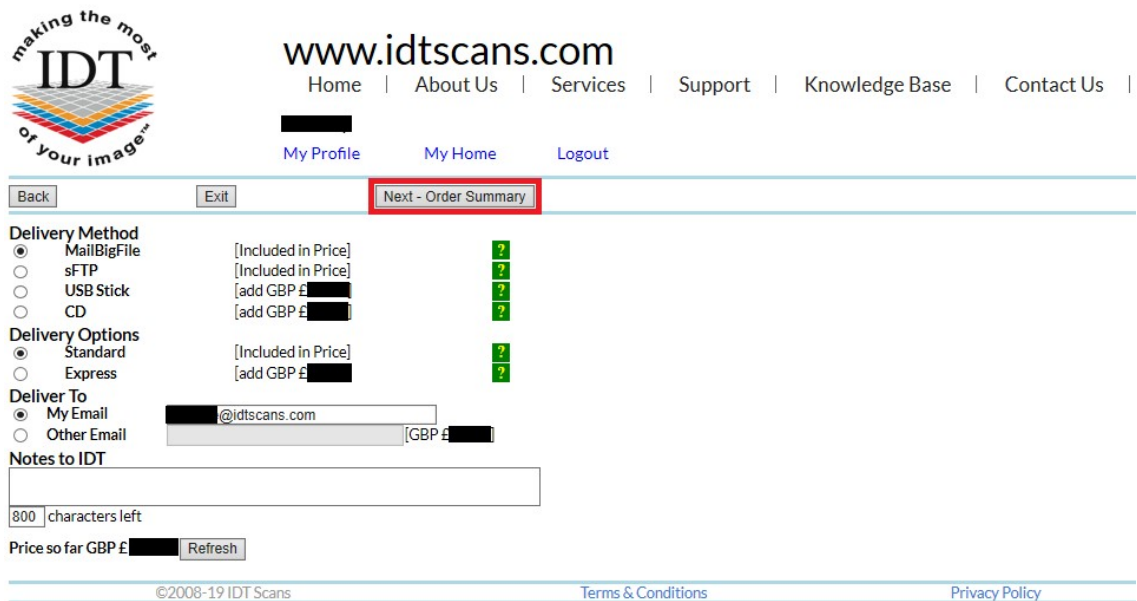

- Radiology Report [add GBP £ [redacted] ?]
Please outline the patient's clinical history and describe any symptoms leading to the report request. Please indicate any specific regions of interest.
- Implant Simulation [add GBP £ [redacted] ?]
- Implantologist's Treatment Plan [add GBP £ [redacted] ?]
Please state the proposed implant sites, the implant system to be used and describe the clinical outcome to be achieved.

Each service option has a text area below it with a character count of '800 characters left'. At the bottom of the form, there is a 'Price so far GBP £ [redacted] Refresh' button. The footer contains copyright information and links to 'Terms & Conditions' and 'Privacy Policy'.

- **Radiology Report** – tick this box if you want the images to be clinically evaluated and any abnormalities reported by a Dental Radiologist.
- **Implant Simulation** – tick this box if you would like a Dental Technologist to provide screenshots illustrating possible implant sizes and locations.
- **Implantologist's Treatment Plan** – tick this box if you would like a dentist specialising in Dental Implants to create a treatment plan for your patient.

Step 12:

Choose how you would like to receive the results.

Step 14:

The **Referral Letter** must be signed by the prescribing dentist, otherwise it will not be accepted by the scanning site. If you are the prescribing dentist, you can sign the Referral Letter online, or email it to yourself to sign later.

The screenshot shows the IDTscans.com website interface. At the top left is the IDT logo with the tagline "making the most of your image". The main header includes the website name "www.idtscans.com" and navigation links: Home, About Us, Services, Support, Knowledge Base, and Contact Us. Below the header are user links: My Profile, My Home, and Logout. A navigation bar contains buttons for Back, Exit, and Next - Payment (highlighted with a red box). The main content area is titled "Referral Letter" and states: "A Referral Letter has been created automatically. Please review it carefully here." It asks the user to indicate approval by signing in the box below. A radio button labeled "Sign Online Now" is selected and highlighted with a red box. Below this is a large empty text box for signing, with a "Clear" button underneath. An alternative option "Sign Offline" is also present, with instructions to print, sign, and scan the letterhead, or email it to bookings@idtscans.com. A note states: "A copy of the Referral Letter will be emailed to you for your records." At the bottom of the form, there is a "Price so far GBP £" field with a "Refresh" button. The footer contains copyright information "©2008-19 IDT Scans" and links to "Terms & Conditions" and "Privacy Policy".

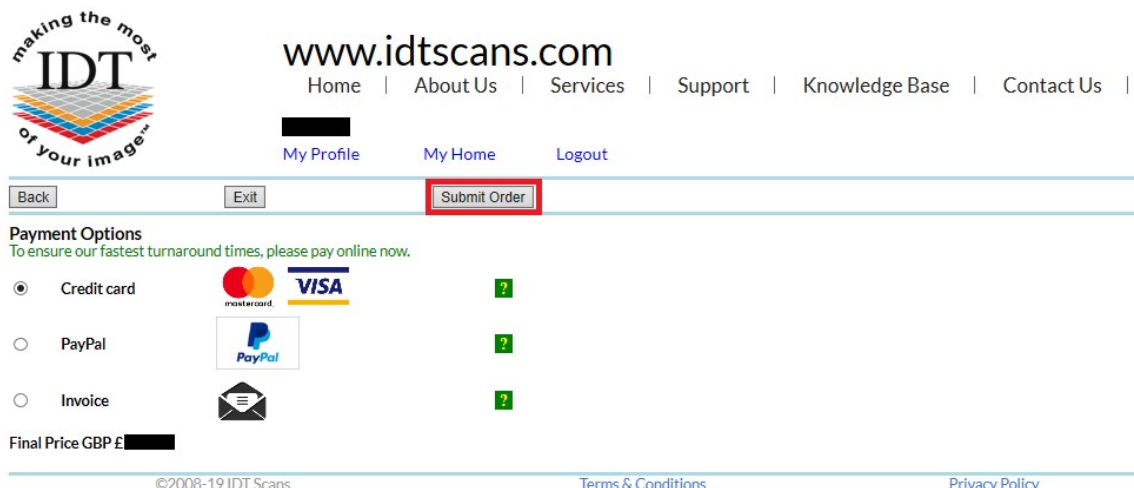

Step 15:

Choose how you would like to pay for the scan. You can either **Pay Online** immediately with a Credit Card, Debit Card, PayPal or select **Pay By Invoice**.

Unless you have arranged credit facilities with us, payment will be required before the scan can take place.

If you select 'Pay By Invoice', we will send an Invoice to you or your patient, but we may not schedule the scan until the Invoice has been paid.

If you wish to avoid delays we suggest that you Pay Online.

The screenshot shows the IDTscans.com website interface at the payment options stage. The header and navigation are identical to Step 14. The navigation bar now includes a "Submit Order" button highlighted with a red box. The main content area is titled "Payment Options" and includes the instruction: "To ensure our fastest turnaround times, please pay online now." There are three radio button options: "Credit card" (selected), "PayPal", and "Invoice". Each option is accompanied by its respective logo (Mastercard, Visa, and PayPal for credit cards; the PayPal logo for PayPal; and an envelope icon for Invoice). To the right of each option is a green question mark icon. At the bottom of the form, there is a "Final Price GBP £" field. The footer contains copyright information "©2008-19 IDT Scans" and links to "Terms & Conditions" and "Privacy Policy".

Step 16:

If you choose to pay by Credit or Debit Card, you will be redirected to the **NetBanx** or **Stripe** secure web payment services where your card details will be taken.
