

Installing Simplant View or OneShot from a CD/DVD or USB stick you received from IDT

To Install Simplant View or Simplant OneShot

Step 1

Insert CD/DVD into drive.

The IDT Simplant Install Launcher will start automatically:

ing the	Actions		GO
Akii in	Install Simplant software		0
~~O.	Install Implant Libraries		Quit
	Simplant Projects Directory :-		
1	C:\DentalData		K
	Project Files :-		
	PATIENT1 2019-04-09	To be copied	PATIENT1 2019-04-09
	PATIENT2 2019-06-15	To be copied	PATIENT2 2019-06-15
	PATIENT3 2019-07-19	To be copied	PATIENT3 2019-07-19
	PATIENT4 2019-04-18	To be copied	PATIENT4 2019-04-18
0	<		>
You :: mage	Please select Actions, and Proje	ects, then click "I	GO"
- 4r m			

If the Install Launcher does not start automatically, use File Explorer to navigate to the root of the CD/DVD or memory stick and double-click "Setup.exe":

Step 2

Tick the box next to "Copy project files" if you want to copy Simplant project files to the **C:\DentalData** folder on your computer. We recommend storing all Simplant Projects in the **C:\DentalData** folder. However, you may browse to a different folder using the button shown.

You can untick the boxes next to any projects that you don't want to copy.

Step 3

Tick the box next to "Install SimPlant software" if you want to install Simplant View or OneShot on your computer. Leave it unticked if you already have Simplant on your computer. For Simplant OneShot you should install the Implant Libraries as well.

Please click the **GO** button when you are ready to proceed.

Step 4

The Simplant project files will be copied to the folder selected (usually **C:\DentalData**). If any project file already exists, you can choose to overwrite it or rename it.

Step 5

The Simplant software may take some time to start installing. Please wait till it starts installing, then follow the onscreen instructions. Similarly for the Implant Libraries (if selected).

Step 6

When installation is complete you will see this message:

Setup		X
	Info	
	Installations fir	nished !
1	Would you like	to Quit ?
	Yes	No

Click Yes to terminate IDT Simplant Install Launcher.

Step 7

If installation was successful you will see a Simplant icon on your Desktop. Launch Simplant by double-clicking the Simplant icon.

Step 8

From the File menu select Open Files ...

S)	(No project loaded) - SIMPLANT View 16.0
File	Help
8	Open Files
	<u>C</u> lose Project

Step 9

A dialog box will open and you will see your patient listed. Double-click on your patient to view the images.

Step 10

If there are **DICOM files** or **Radiology Reports** on the CD/DVD/USB stick you can access them by starting Simplant Install Launcher and clicking "**Browse CD**":
